swarnabhab2006@gmail.com | +91-9732854800 | Kolkata, West Bengal, India | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Full-stack developer with 1 year of hands-on experience building and deploying web applications, with a focus on turning ideas into functional, well-structured products. Comfortable working across the development lifecycle, from shaping application requirements and interfaces to implementation, debugging, and refinement. Currently seeking software engineering internships and freelance opportunities to build practical products and contribute to real-world development work.

TECHNICAL SKILLS

Languages : JavaScript

Frontend : Next.js, React, Tailwind CSS, shadcn/ui, Framer Motion, Recharts, Tiptap

Backend : Node.js, Express.js, Next.js API Routes

Authentication & Email : NextAuth.js, Resend, Mailtrap

Database & Storage : MongoDB, Mongoose, Supabase

Real-Time & Background Jobs : Redis, BullMQ, Server-Sent Events (SSE)

Tools : Git, GitHub, Postman

PROJECTS

StoryHub – A production-oriented full-stack blogging platform

[Live Demo](#) | [GitHub Repo](#)

- Built StoryHub to provide a complete platform for creating, publishing, discovering, and engaging with written content, bringing content management, social interactions, notifications, and creator analytics into a single application.
- Developed the platform with Next.js and a full-stack JavaScript architecture, using NextAuth.js for authentication, MongoDB and Mongoose for data management, Supabase for secure media storage, and Redis with BullMQ for background email job processing.
- Implemented core publishing and social capabilities including post workflows, recursive discussions, likes and bookmarks, user relationships, full-text search, real-time notifications through SSE, activity feeds, creator analytics, and scheduled publishing with timezone-safe background execution.
- Designed the application around iterative refinement, improving navigation, interaction flows, loading states, and overall usability while building and refining the platform as an independent software project.

EDUCATION

Techno India University | 2024 – 2028

Bachelor of Computer Applications (Honours)
